

## HEAD OF QUALITY MANAGEMENT

Leadership and transformation in a global context

### Challenges

This internationally oriented and well positioned group is active in the construction supply industry. Modern architecture, quality and sustainability are key to the company's success. Transformation, a dynamic mindset, modesty and dedication shape its values and culture. In this important management role, you will take the overall responsibility for the development of quality management within the group (subsidiaries and several production sites across Europe) and play a defining role throughout the value chain. Through the consistent use of tools and methods, you will ensure the quality of the products and services at all times, working with care and focus. Your challenge is to build, optimise and digitalise processes. You exemplify professionalism, integrity and absolute reliability.
